KHATEEF T.

TECHNOLOGY PORTFOLIO | SOFTWARE • QUALITY • ENGINEERING

PROFILE

2026 B.Tech graduate in Electronics and Communication Engineering, interested in software development, quality assurance, data quality and practical technology solutions. Brings an adaptable, team-oriented approach with an emphasis on problem-solving, testing, debugging and clear documentation.

TECHNICAL SKILLS

Programming & Core Python Programming • OOP Fundamentals • Data Structures • Problem Solving • Exception Handling	**Databases & Tools** SQL & Databases • Git & GitHub • VS Code (IDE)
Software Engineering & QA Programming, Testing & Debugging • Unit Testing Basics • CI/CD Fundamentals	**Methods & Workflows** SDLC • Agile Methodologies • JIRA • Agile Task Tracking • Data Quality • Mapping Workflows

SELECTED PROJECTS

Smart File Organizer

A project focused on organizing files into a clearer structure, making digital file management easier.

Python • File Management

Expense Tracker

A project designed to record and organize expenses, helping users keep track of spending.

Python • Data Handling

IoT-Based Fuel Monitoring and Alerting System

An IoT project focused on monitoring fuel levels and providing alerts based on system readings.

IoT • Monitoring • Alerts

PROFESSIONAL INTERESTS

Open to entry-level opportunities in Software Engineering, Python Development, QA / Software Testing, Data Quality and Technology Operations.
